

Community of Hope is a collection of individual cancer stories. Every person who has been affected by cancer has learned something that could benefit someone else. In their own words, patients, spouses and other family members of patients, and long-term survivors reflect on how cancer had changed their lives and how they view the world differently.

If you are a cancer patient who received any phase of your treatment at Decatur Memorial Hospital, please take few minutes to share your story. We'd also like to hear from patient's family members about how cancer has affected their lives.

To submit your story, send it via email to Terri Eller at terrib@dmhhs.org. Photo(s) are highly recommended. Please send your copy and any photos as an attachment. Final confirmation will be sent to you prior to posting on the DMH website—www.dmhcares.com.

We encourage you to help make a difference in the lives of others and share your Community of Hope story.

If you have further questions, call 217-876-6614.

Thank you!
